

AbbVie LLC Transparency Disclosure Methodological Notes for Reporting Year 2018

As a member company of EFPIA and AIPM, AbbVie LLC is committed to ensure that the nature and scope of transfers of value (ToV) with healthcare professionals (HCPs) and healthcare organisations (HCOs) are clear and transparent to the public. Therefore, AbbVie LLC has published applicable ToV provided directly or indirectly to HCPs or HCOs for the 2018 calendar year.

This Methodological Note provides guidance on how AbbVie LLC has recorded and publicly reported this information in accordance with the current editions of AIPM Transparency Code.

The AbbVie LLC 2018 disclosure includes applicable ToV during the period between 1 January 2018 and 31 December 2018.

Transactions processed after 8 February 2019 will be considered for the next report.

Transparency Acknowledgment from HCPs or HCOs (where applicable):

Agreements between AbbVie LLC and HCPs/HCOs relating to ToV may have included a Transparency section where HCPs and HCOs were notified of AbbVie's Transparency disclosure obligations.

Consent Approach:

HCPs or HCOs, where applicable, received correspondence explaining AbbVie's commitment to Transparency and the options and rights they have in accordance with the data protection legislation

AbbVie will publish the total value of the ToV for those HCPs or HCOs, where applicable, that have provided express consent for such individual disclosure. HCPs or HCOs, where applicable, not providing consent will have their amounts included in an aggregate amount published per AIPM requirements.

If an HCP would like to withdraw a consent already provided, they can do so in writing to AbbVie in accordance with local requirements of legislation on the protection of personal data.

Partial Consent:

AbbVie LLC supports full disclosure. If only partial consent is given by an HCP or HCO, if applicable, all the ToV of this HCP or HCO, if applicable, will be disclosed in aggregate.

Multiple Licensed HCPs:

HCPs with licenses authorizing them to practice in more than one country, including Russia, may have ToVs disclosed in multiple country reports.

Non Duplication:

Whenever possible, ToV are disclosed to the respective HCPs. If ToV is provided to the company of an HCP, the ToV will be attributed to the company.

HCP/HCO Number of Recipients Reported at an Aggregate Level:

Each category of ToV reported at an aggregate level includes the number of HCPs/HCOs provided with a ToV. Each HCP/HCO that received a ToV is counted as one recipient in each category.

Cross Border Interactions:

Reportable ToV provided by AbbVie affiliates (worldwide) to Russia HCPs/HCOs have been included.

Sponsoring Payments Made to More Than One HCO:

In the case of sponsorship agreements where different HCOs have participated, it was assumed that each HCO received an equal share and was published at individual HCO. However, we disclose such cases taking into account factual circumstances with supported documentation. Distribution of ToV within HCOs is determined by sponsorship agreement or official communication, or other documents.

Pre Disclosure:

During April – May, HCPs that granted consent to disclose on individual level, received correspondence containing the details of ToV to be reported in accordance to AIPM requirements. AbbVie's intention was to provide an opportunity to HCPs to verify and review the information to ensure it is accurate, prior to disclosure on the Abbvie local web-site by 28 June 2019.
